

Rosenwald Elementary Middle School Summer School Reading List

Hello Parents and Students! We have made it through another different, but successful school year! We would like for each student to continue to read as often as possible! Years of studying and research says that a child should read at least 20 minutes a day. It is understandable that there may be a difference during the summer break, however the more books a child reads, the more beneficial it will be to the child. Please have your child read at least **three (3)** books this summer. It does not have to be a book on this list!
